### About Me

I am a Senior Front End Developer with 14+ years of experience working with UI and visual designers to build pixel-perfect, interactive interfaces and websites. Exceptional ability to communicate technical concepts to non-technical audiences and directly consult with clients. Experience supervising junior developers and remote development teams. Solid problem-solving skills, well-organized, self-motivated, able to meet tight deadlines and handle multiple projects. A passion for semantic markup, web accessibility and bridging the gap between code technologies and design.

### Professional Skills

#### HTML 5

Semantic markup  
Web accessibility  
Responsive emails

VS Code / Sublime

### Education

|  |             |
|--|-------------|
| <b>Cal State Long Beach</b>                    | 1992 - 1995 |
| International Security and Conflict Resolution |             |
| <b>Fullerton Community College</b>             | 1989 - 1992 |
| General Studies                                |             |

### Work Experience

**Senior Front End Developer** Dec 2015 - Apr 2018  
DesignMap • San Francisco, California

- Produced UI component libraries, responsive layouts, javascript applications and high-fidelity prototypes for client websites and enterprise software using HTML, CSS, ES6, React, AngularJS, jQuery and HandlebarsJS.
- Participated in early discovery of code expectations and advised throughout the UX lifecycle to ensure rapid development that delivered to client needs.
- Supervised junior developers and coordinated with remote development teams in code production.

**Front End Developer** Feb 2014 - Dec 2015  
DesignMap • San Francisco, California

- Collaborated with visual designers to convert design comps into production-ready code for websites and interfaces for enterprise software.
- Built high-fidelity prototypes in AngularJS for A/B user testing and proof-of-concept projects.
- Produced UI component libraries and responsive layouts as front end deliverables for software teams.
- Built and tested responsive emails for company and client marketing.

**Web Developer** Jan 2013 - Feb 2014  
Freelance • San Francisco, California

- Converted design comps into mobile-first, responsive production code for a variety of company websites.
- Built high-fidelity prototypes in AngularJS.
- Coded responsive emails for marketing campaigns.
- Developed company websites in Wordpress and PHP.

**Front End Developer** Nov 2011 - Dec 2012  
Anthem Worldwide • San Francisco, California

- Converted design comps into responsive websites.
- Developed company and client product presences in Wordpress and Drupal.

**Web Developer** Sep 2009 - Nov 2011  
Freelance • Southern California

- Worked with design teams to convert Photoshop comps into front end production code and online services for a variety of consumer websites.
